Aptech's services can be summarized as follows:

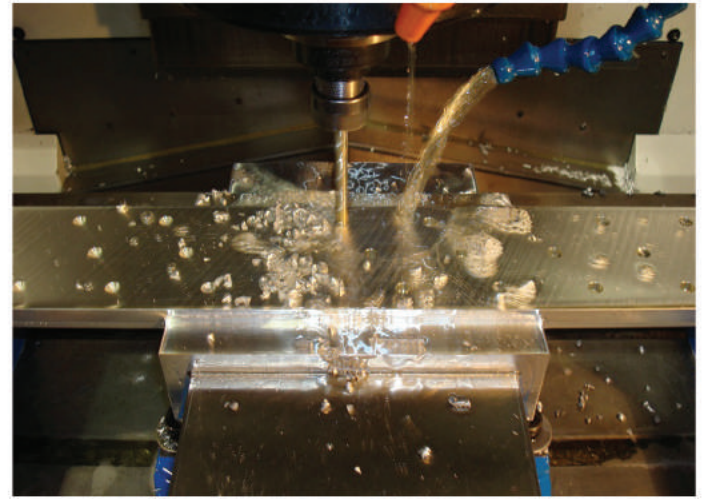

1. Working with customers to improve their designs.
2. Assist in documenting and visualizing designs into blue prints.
3. Identifying specifications.
4. Clarifying applications of parts to be manufactured.
5. Creating a direct association between the blue prints and applications.
6. Suggesting base material for manufacturing parts.
7. Selecting suppliers.
8. Feeding designs into CNCs and making samples for proofing.
9. Perfecting samples.
10. Working out production scales for economizing costs.
11. Mass production based on long term purchase orders.
12. Meeting with clients and formulating new generations of their parts or articles.
13. Identifying economic reorder quantities and delivery intervals with the customers to avoid stock outs.
14. Calculating buffer inventories.
15. Storing particulars and specifications of each part for each client and new generations or off-shoots of them in their computerized program as well as in their archive.
